Q.4 (b) What is reinsurance? What are the techniques of Reinsurance?	07

Q.5 **Read the following case and answer:** “Mr. X took a policy in February 2008. He died within two years, in August 2009. The insurer investigated the claim and found that he had consulted a doctor, and had taken medicine on various occasions in 2006, 2007 and 2008. In the proposal for the question: Have you within the past five years consulted any medical man for any ailment not necessarily confining to your house? The response given was ‘NO’. The insurer repudiated the claim alleging that the insured had deliberately suppressed facts about his illness which was a material fact. When the issue was taken to court, the insurer could prove that the insured had been taking medicines and injections but not that he was suffering from any particular disease. The doctor who gave evidence about the medicines taken also stated ‘the diseased was usually of neurasthenic type, that his condition was almost normal. Occasionally took medicines from him and used to make much fuss about even small ailments, and he would be quite upset over such small ailments.’ The judgment was in favour of the claimant.” Hyperchondria: an abnormal condition characterized by a depressed emotional state and imaginary ill health, referable to the physical condition of the body or one of its parts.
