Q.5 CASE STUDY:

The hotel owner focuses on different marketing strategies within this case study such as advertising, discount distribution; word of mouth marketing etc. this is to help maximize revenue/yield.

News papers are expensive and billboards aren't effective.

Sales when customers come in purchases only work when the owner is the front desk because the employees don't have the desire and commitment.

50% of clients are regulars and employees understand their needs and display good customer service. No discounts are given to them though.

Walk-in customers may get a discount, however he has to keep this decision on a low profile so his regular customers don't think he is being unfair.

- (a) What role does the hotel staff play in yield management? **07**
- (b) Why is desire important for Yield Management? **07**

OR

- Q.5**
- (a) How can managers reduce problems in giving discounts to certain types of guests? **07**
 - (b) Determine the inventory that is able to be distributed without affecting the profit being made. **07**
