Justify your answer with suitable examples. (a) Explain "Make To Stock" (MTS), "Make To Order" (MTO) and "Configure To 0.3 07 Order" (CTO) with suitable Examples. (b) Why one wants to design different material flow systems for fast-and slow-**07** moving items? **Q.4** Explain Quantitative and Qualitative Methods of demand forecasting with 07 suitable examples. (b) Parle has decided to increase its reach in rural areas. What are the implications 07 of this decision for the department that manages the supply chain for Parle products? OR What are the advantages and limitation of centralized purchasing in 0.4 **07** comparison to decentralized purchasing for a chain of fast-food restaurant you suggest and Why? Compare and contrast issues involved in vehicle routing in the following **07** applications: 1. Cab Rental Services; and 2. Food Delivery company.

TVS Motors, a two-wheeler manufacturing company, has been offering the Scooty range of Two-wheelers for the young generation. TVS, in its market research, found that color is the prominent way of self-expression among women consumers. Based on this finding, TVS recently introduced the 99-Color Campaign in selected cities with the intention of attracting young women. The customer can choose from the range of 99 shades, available for premium of Rs. 1000-1900/-. Offering 99 shades can be a supply chain nightmare. TVS has come-up with an innovative way of managing such a wide variety of offering. TVS stock unpainted panels at the retail outlet. These unpainted panels are sent to Asian Paints who return the panel, painted in color chosen by customer, to the retail outlet within 24 hours. So TVS can manage product delivery in 48 hours without worrying about the large amount of finished stock at the retail outlet.

(a) Explain the SCM Strategy of Asian Paints would be in above case.

Suggest how TVS motors can offer the 99-color campaign to entire India rather than selected cities. Also explain the relative changes required to be made for this change in existing SCM.

OR

Q.5 (a) Explain the SCM strategy of TVS Motors.

(b) Do you think by taking premium of Rs.1000-1900/- would have covered the transportation cost from TVS to Asian Paints and back? Suggest how this cost can be managed effectively.
