Q.5 Case Study

Baby Direct – Online Retailer of Baby Products in India

Baby Direct is a leading professional online store in India, and proudly Indian owned and operated business. It provides largest selections of unique and high quality baby products from top manufacture like nursery furniture, change tables, baby monitor, stroller, Prams, etc. The existing market is highly competitive with total matching search results pages numbering 14 - 50 million in Google alone for all terms in the initial organic SEO campaign. Competitors include numerous strong sites like “babyco.com.au”, “babybunting.com.au”, “babytrain.com.au” and others with many years of site age and a wide range of inbound links. This leading online store in India was losing online market share, and they got in touch with your employer (an SEO consultant) for web strategy and a complete, full-spectrum SEO campaign. The client’s goal was to get on top for the major keywords and utilize organic search (SEO) to increase lead volume and market share.

- (a) Develop list of important keywords for the company for SEO. **07**
Explain how it will help the client achieve its goal.
- (b) Do you think is digital platform is appropriate for such product line? Explain. **07**

OR

- Q.5** (a) Discuss the steps/strategies would you suggest to the client for the stated objectives. **07**
(b) Why organic search is more important for marketer than inorganic search? **07**
